

The 1000 Series

Injection Molding Grade Compounds

- Pellets are custom formulated using various percentages of Micronized Rubber Powder (MRP) and various recycled or virgin plastic resins, to use as a 100% replacement for plastics
- To obtain improved physical traits or added as a masterbatch to current formulations
- The applications are endless

Current Markets and Product Applications:

Markets and Applications for Durability

- o Residential Trash Containers and Recycle Bins
- o Pallets
- o Storage Bins
- o Recreational Products
- o Agricultural Tractors and Equipment
- o Wastewater Pipes and Corrugated Half Pipes

Temperature Sensitive Impact-Resistant Compounds

- o Dunnage
- o Cold or Hot weather Mil-Spec molded products
- o Urban Products for Accessibility Platforms
